Leaping Ahead of Extinction

A celebration of good news for amphibians in 2012

Organizations all over the world are working together to help save amphibians from extinction.

Why not visit your local zoo, aquarium or botanical garden on Leap Day 2012 (February 29th) to see how they are helping?

Zoos and aquariums: A global community for captive amphibian conservation.

We all have a responsibility to take care of our precious planet – do what you can to help today.

Participating institutions:

Species: 1. *Litoria spenceri* 2. *Hylomantis lemur* 3. *Atelopus spumarius* 4. *Ansonia latidisca* 5. *Epipedobates anthonyi* 6. *Atelopus palmatus* 7. *Agalychnis moreletii* 8. *Atelopus zeteki* 9. *Alytes mulentis* 10. *Hylomantis lemur* 11. *Epipedobates tricolor* 12. *Gastrotheca cornuta* 13. *Centrolene sachatamia* 14. *Atelopus zeteki* 15. *Tylotriton kweichowensis* 16. *Litoria aurea* 17. *Gastrotheca cornuta* 18. *Atelopus limosus* 19. *Neuergus microspilotus* 20. *Cochianella euknemos* 21. *Atelopus glyphus* 22. *Hyloscirtus tigrinus* 23. *Anotheca spinosa*
